50th Reunion

Our Reunion took place on September 26, 2026 at the Crowne Plaza Hotel, 1250 Roosevelt Road, Glen Ellyn, IL 60137. We had 123 classmates in attendance, and 37 guests for a total of 160.

A fabulous evening was had by all. Many long lost classmates were reunited and many new friendships made. We are so fortunate to have grown up in the era we did and have such a warm and amazingly brilliant class.

Reunion BLESSING

I've been asked to offer a prayer of blessing for this event, for those gathered here and your families, and for the food we are about to receive.

Lord God,

The paths of our lives have taken us far and wide, but it is surely a blessing for us to be able to gather together after more than half a century.

Over the years you have never left us alone, though at times we might have found ourselves wandering in deserted places. Help always to know your presence, confident in your never-failing love.

Grant your favor upon us and our families. May we work to better this world and the lives of all your children.

As we become more and more advanced in age, let us grow more deeply in the knowledge of you and your designs in our lives.

Tonight we ask your blessing on this assembly, guide our conversation; bless the meal we will share, those who prepared it, and those around the world who will go to bed hungry.

Above all, help us always to live and act as your loving children, ready, one day, to be called home to you.

We praise you and ask all things confident in your loving mercy upon us.

Amen.

SCRAMBLE

We were honored to have Jeff Rutter's band, SCRAMBLE, provide the night's entertainment.

Jeff's brother, Bill Rutter, was a classmate of ours who passed away way too soon. Jeff also enjoyed sharing the evening with the Class of '76 in a touching tribute to his brother's memory.

We danced the night away to our favorite hits of the '70's, bringing back memories for all.

The Boys ARE BACK IN TOWN

FIGHT SONG

Fight Roman Warriors, for glory
and victory in the game.

Fight for the honor of winning the
highest fame for our name.

Willowbrook High School is proud
to be cheering you to victory.

So we want to know we'll cheer
'til we reach our goal.

Raise high our banner with colors
of silver, grey and blue.

It stands for spirit, the spirit to win
acclaim that's our due.

Gridiron or classroom, we're striving
to win an ever high score.

Hear us say it once more -
let's go Roman Warriors, score!

REMEMBRANCES *From Our* 20TH REUNION

Planning reunion a nostalgic journey

Nostalgia sets its own pace in each person, making some long to revisit the good old days sooner — or later — than others. For example, take **Shawna McDonough** from Willowbrook High School Class of 1976, who has a hand in planning its 20-year reunion.

"I didn't go to our five- or 10-year reunions, and mentioned to a few people that I wanted to go to the 20th. But no one was doing it," McDonough said.

"So, over dinner one night, **Maureen Osborne** and I decided that we would organize the reunion and recruit help from those who worked on the 10-year. When we called them, they practically hung up on us because reunions are so much work," she said with a laugh. "They wanted tickets for it, but that's all."

However, McDonough and classmate Osborne persevered, cajoling a few more alumnae to lend a hand for some serious reunion planning.

"Starting with information from the 10-year, we cross-referenced names, went through phone books, and thought the list was pretty well updated after spending three weeks on the telephone," McDonough said. "Last January, we sent a mailing to 800 people."

McDonough says that those who now live farthest from Villa Park gave the most enthusiastic responses to the gathering scheduled for Aug. 31.

"Especially if they hadn't seen anybody for awhile, they thought a reunion would be a blast," she said.

"We're counting on at least 250 showing up," she said.

Because of her experience, McDonough has some advice for reunion strategists: Keep your planning committee small.

"We find that a small committee works well because decisions can be made more quickly. Maureen is organized and on top of everything," she said, adding that classmates **Gail Skrzypek Stockton**, **Tina LaBella Kalbfleisch** and **Wendy Bowdish Flynn** help by doing computer work, keeping track of money, and providing printing services.

"Also, you need money for postage, deposits on the banquet hall, disc jockey and photographer," she said, indicating that personal cash outlays make planners even more anxious for a good response from classmates.

Give us a brief history of your life since graduating: (Limit to 300 words)

Married in 1983, one daughter, divorced in 1993. Worked as an executive assistant throughout my career and I truly enjoyed it. I remarried in 2005. My daughter and her husband, my two beautiful granddaughters moved to South Carolina side of the Charlotte area in 2014. When my husband retired in 2017 I transferred with my employer and we also moved to South Carolina to be near my only daughter and her family. My daughters husband was transferred to Florida in 2022 and I retired early in 2023 so we followed my daughter once again. For the record, I LOVED the Carolinas—I am happy in Florida, but the summers are brutal. I am divorced once again, my choice, but I am happily following Jesus and taking care of my 87 year old mother. Family is everything. This short synopsis only hits the milestones, and not the many happy and sad events that make up what I consider a joyous life. All thanks to my Lord and Saviour. I pray each of you can see where the Lord has been in your life and praise him for everything you have and everything he has saved you from. God is good! If you don't know him, seek him. You won't regret it.

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

I credit my love of movies to the fabulous Mr. Mostacci! We did little else but watch and talk about cool movies in his classroom. Sometimes there was popcorn. It's the stuff of legend!

What were your top 3 favorite songs in High School? Add the artist, if known.

A Little Bit More - Dr. Hook & The Medicine Show
The First Time Ever I Saw Your Face - Roberta Flack
The Wreck of the Edmund Fitzgerald - Gordon Lightfoot

What is your fondest memory of Willowbrook High School?(Limit to 100 words)

My fondest WB memory was the 50th class reunion! I thought my soul would explode with sheer joy when reunited with my old friends. The decades have sped by but the beautiful memories of good times and good friends remain firmly planted in my heart!

Many thanks to Fran Jakubauskas and Mary Fiedler for welcoming us to their table. And so grateful to Fran for the special pictures that will be treasured forever!

Deep appreciation to Shawna and the organizers for bringing us together for this magical, incredibly memorable evening. I wish the night never ended!

Give us a brief history of your life since graduating: (Limit to 300 words)

I attended Elmhurst College and graduated in 1980 with a B.S. degree in Economics.

I got married late in life (33!) to a sweet guy from New Orleans. We worked at the same company and were set up on a blind date by our respective bosses who thought we'd be perfect for each other. We weren't! Well, not at first, anyways. But it all worked out, and I finally saw the light! We will celebrate our 34th anniversary in December. And I definitely got the better end of that deal!

We lived in the beautiful small town of Fountain Hills, AZ for 15 years. Over the years we have lived in 7

different Villa Park homes. We love Villa Park and can't understand anyone who doesn't!

We had no 2-legged children, but adopted many 4-legged (and one 3-legged amputee) rescue animals over the years who filled our home with much craziness and endless love. For better or for worse, we are now down to one dog and one cat!

Tell us about your career path: (Limit to 100 words)

After graduating college, I went to work in the financial services industry, where I spent my entire professional career. I was a licensed stockbroker, working at JPMorgan Chase & Co., Charles Schwab & Co., and The Chicago Corporation. I retired full-time in 2018 and part-time a few years ago.

Since retiring, I have tried my hand at house-flipping. I am down to my last project which is on the market now. Hopefully, it will be sold soon and I will then be officially retired from everything remotely resembling work!

Have you retired? What are you doing now:(Limit to 100 words)

I'm retired, but my husband still works.

We spend much of our time on the Gulf Coast at our home in Biloxi, MS that we bought 2 years ago. It's peaceful, and not many people down there. No snow, ice, or wind chill, and only 110 degrees in July!

Add anything else you would like to share with the class:

Saturday night ended far too soon and there were many friends who we missed reconnecting with. Sure hope to make up for that at the next reunion. Let's do it again, and soon!

To my dear friends, thank you for the cherished memories. You are all so beautiful!!

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

Mr Dobbins saw my raw talent and encouraged me to explore. I'm grateful. His classroom was a place where I could be me.

Give us a brief history of your life since graduating: (Limit to 300 words)

Mine was a multi lingual, multi cultural home. I left Willowbrook to attend college and met my husband there. I also became a certified interpreter . Mike and I married in 1981 after graduation and moved to Michigan. We have four children, two boys and two girls. I continued freelance interpreting and found a full time position with AT&T. After acquiring my MBA and MSU Political Fellowship I went on to become an AT&T lobbyist. I left AT&T and became an advocate for the Michigan Deaf community.

Mike and I are now retired although I continue working as an interpreter. We are "snowbirds" with homes in Michigan and Florida. We have six grandchildren.

Tell us about your career path: (Limit to 100 words)

Long story… ASL translator, AT&T manager, AT&T lobbyist, mom, grandma, Deaf Advocate, Director of Resident Services at Life Challenge Addiction Recovery Center (Teen Challenge USA)

What is your proudest achievement: (Limit to 100 words)

My proudest achievement is my family. I am so proud of all four of my children. They each took their own path but are highly successful: bank vice president, chef, engineer, and doctor.

Have you retired? What are you doing now:(Limit to 100 words)

Yes we are retired but I continue to do freelance interpreting. Mike and I enjoy biking and walking and spoiling our grandchildren.

Dr. DeRoche was our band teacher and I admired him a great deal. He somehow had a cool dude affect to him that I really liked, and I seem to remember that he invited us at times to his home.

What was your favorite hang-out place in High School?
I don;t think I really spent much time there...so I can't really remember.

What were your top 3 favorite songs in High School? Add the artist, if known.
No recollection!

What is your fondest memory of Willowbrook High School?(Limit to 100 words)
One of my only memories is of my reluctance to take physics because I had a perfect grade point average and didn't want to wreck it. My chemistry teacher told me that any girl that took physics would get an A, which I knew was false, but recognized that he wanted me to continue in science so I took it (and aced it). I do also remember a friendly academic competitiveness with....was it Jon Stiffler?

Give us a brief history of your life since graduating: (Limit to 300 words)
I left Willowbrook after Junior Year, instead attending Elmhurst College for my last year. I had hoped to attend college in Switzerland as a Swiss citizen but ended up only spending 5 months there before returning to the US, and waiting for the next academic year to attend MIT for undergraduate, working a year and a half and finishing my doctorate at Harvard University, followed by a postdoctoral fellowship. My son was 5 months old when I defended my thesis, and my daughter was born 2 years later. My husband and I moved to Boulder, CO, where I have lived ever since. I divorced twice and am now married to my third, and final, husband ;)

Tell us about your career path: (Limit to 100 words)
I worked as a researcher after my postdoc in nanometer lithography at U. of Colorado, then about a ecade in the magnetic storage business. The last 22 years of my career I worked at Ball Aerospace on a wide variety of space telescopes, including the James Webb Space Telescope. I did experimental and modeling work having to do with molecular transport, fluid mechanics and the effect of the space environment on telescopes.

What is your proudest achievement: (Limit to 100 words)
I frankly think it was mostly just keeping going in spite of hardship, limited funds, and complete lack of family support to achieve academic and career success, while also having children that could grow up in a loving home that I never had.

Have you retired? What are you doing now:(Limit to 100 words)
Yes, in Dec 2025. Nothing too exciting to tell you the truth. Writing, playing music, biking, hiking, Rotary Club, volunteering at the high school, trying to stay physically active. I'm actually still looking for things that engage my mind the way that my work did.

All the auto shop teachers (Mr. Miller, Mr. Radtke, Mr. Nymeyer, Mr. Loew). Providing me with a desire to learn how vehicle systems worked and the ins and outs of how to go about analyzing the problem and how to go about repairing them. This course of study impacted the choice I made of what rating I choose while I served in the Navy and field of engineering to study in college as well as the ability to teach my children some of the basics of car maintenance as well as performing maintenance which still continues to this day.

What is your fondest memory of Willowbrook High School?(Limit to 100 words)
Competing in the state's Vocational Industrial Club of America (VICA) automotive competition with all the awards being handed out and then finding out a week later that I had ultimately placed 1st in the state based on the scores being tallied up in error. This allowed me to compete in the national VICA automotive competition that was held in Miami, FL that year, but more importantly it also taught me a life lesson of handling defeat when your expectations on finishing in the top 3 but then missing out completely had initially occurred.

Give us a brief history of your life since graduating: (Limit to 300 words)

I graduated from SIU and worked as a dental hygienist for 43 years. Tom and I have been married for 45 years and live in the same log home we built before we were married. We have 2 kids and 3 grandkids. We enjoy traveling and have been fortunate enough to visit quite a few states and countries, including 6 humanitarian trips to Bolivia and the Philippines, where we helped build homes for the poor. Although I never was an athlete in high school, I have been on an adult swim team for 7 years.

What is your proudest achievement: (Limit to 100 words)

I have been a volunteer my entire life. I learned as a Girl Scout the importance of giving back. I was involved in Junior Woman's Club for a number of years, helping with many different projects in the community. I was a Cub Scout den leader. I was also a Girl Scout leader for 8 years, and served as a Service Unit Cookie Chair, Service Unit Manager and a delegate to the national convention twice. Currently, we volunteer with at Morris Hospital, giving free rides to medical appointments.

What is your fondest memory of Willowbrook High School?(Limit to 100 words)

There was such a mix of students. There were the Jocks, the rahs, The stoners... We were allowed the freedom to dress as we wished with no dress code which allowed for some crazy scenarios with girls with super mini skirts and the smoking Lounge was wild. It was as if the administration thought we might as well let the kids smoke at school rather than smoke somewhere else! I don't think it was extended past my first 2 years.

Not necessarily a fondest memory but certainly memorable, was when Mr Langelier was prepping us to dissect fetal pigs. He told us how to tell the males from the females, by showing one with earrings and a necklace, and another with a tie and cufflinks.

Freshmen baseball. We had a great team. Coach Brusveen's first year. I threw batting practice most of the time. If I remember right, we only lost one game where we got behind big early. We came back, should have won except for a bad call. Brusveen went nuts and got thrown out of the game. We nearly went undefeated. Great bunch of guys.

Spent four great years at U of I then moved to St. Louis. Played ALOT of 12" softball in my 20s until I got married to a nice little gal from Fulton Missouri in 1988. We manufactured and raised 3 kids (we both have no clue how we did that now). Our oldest son just had our first and only granddaughter, they live in Wicker Park. Our daughter and youngest son live in Dallas. I worked at McDonnell Douglas/Boeing the entire time until retirement in 2022.

Tell us about your career path: (Limit to 100 words)

I was an aero engineer, worked aerodynamics and flight controls for F-15, F/A-18A-D, F/A-18E/F/G (my logic is in all three of those flight control computers). I retired as a Technical Fellow with an expertise in high angle of attack controllability - basically preventing the aircraft from crashing. Got involved in demonstrating the aircraft to both the India Air Force and Navy (11 trips to India, ugh). Dabbled with V-22 tilt rotor and T-7 trainer. Was the chief engineer on a project to put an aero shaped fuel tank on the Super Hornet. Turned out that's really hard to do.

What is your proudest achievement: (Limit to 100 words)

The original F/A-18 had a unique out-of-control mode where the airplane would settle in a motion that looked like a falling leaf. 20 aircraft were lost. After we developed the Super Hornet in the late 90s, we got smarter on controlling the aircraft and put my logic into the older aircraft that solved the falling leaf problem, also making it more maneuverable. Knock on wood, no jets have been lost since we since the new logic was added in 2003. I got awards from both the American Institute of Aeronautics and Astronautics, and Tailhook. Oh, and a hole in one.

Have you retired? What are you doing now:(Limit to 100 words)

Yep. Since 2022. I still do part time consulting for the Navy flight control guys, doing fun stuff that pays for the country club. I play quite a bit of golf, and you'd think an engineer would be able to figure out how to hit a 7 iron consistently. Nope.

Add anything else you would like to share with the class:

My wife was having a hard time keeping track of her golf shots. I invented an app for the Apple Watch that automatically detects/counts swings, and does some other stuff. Shameless plug to my app:

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)
Mrs. Laura Hays. I had her for French. She was funny (as well as young and cute) and tried to make class interesting. I lived in Morocco for six years and the base I learned in WB (and Jefferson) helped me to get to a point where I functioned well in French. I was far from fluent but had friends who spoke no English and held some parent conferences in French.

Give us a brief history of your life since graduating: (Limit to 300 words)
Went to Quincy College (now University). Taught in the suburbs for four years.
Fell into a teaching job in Cairo, Egypt. Thought I was going for a two-year adventure, but it turned into my career as a teacher in international schools (schools set up for foreigners living in other countries). Thirty-eight years. Traveled extensively. I came back to the US four years ago.
Still travel (I couldn't go to the reunion because I was in North Macedonia).

Tell us about your career path: (Limit to 100 words)
Teacher. I have taught all grades from second to ninth, and almost all subjects. I have taught fourth grade and middle school math and social studies most. I taught for five years in the Chicago area and thirty-eight in international schools (Cairo, Egypt; Jakarta, Indonesia; Rabat, Morocco; Lima, Peru; Ho Chi Minh City, Vietnam; Maputo, Mozambique; and Tashkent, Uzbekistan). I now do long term substituting in Elmhurst.

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)
Miss Petersen was my biology teacher. She was inspiring, vivacious and kept the class fun and interesting (I was easily bored). She also allowed me to keep my pet mice (about 10 of them) in the biology room for the school year. My parent s did not allow pets in the house, so during the chillier months my mice were warm and cozy in the Biology classroom.
Mr Smith was my geometry teacher and he somehow made geometry fun...I began to LIKE math!
Lastly, Mr Saunders for Physics - his "monkey shoot" contraption made class somewhat fun.
What was your favorite hang-out place in High School?

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

Mr. Vandemerkt, my driver's ed teacher. We had so much fun! He taught me things like "If you see something in the road, DON'T aim for it!"

What was your favorite hang-out place in High School?

Library - it was a meeting place for my friends. We would grab poetry books off the shelf and read poems, like "In the Morning" by Paul Laurence Dunbar and just hang out.

What is your fondest memory of Willowbrook High School?(Limit to 100 words)

Stage crew for My Fair Lady and band.

Give us a brief history of your life since graduating: (Limit to 300 words)

Actually, I didn't graduate from Willowbrook because I was an AFS foreign exchange student to Thailand from March 1976 - March 1977. In the fall, I went to college in east TN. There I discovered backpacking and have enjoyed many backpacking trips since then. My first job was in New Orleans and it didn't pay much. I couldn't afford a car, so I bought a 10 speed bike. When I wasn't working, I was out on my bike exploring the Levy, Audubon Park, Lake Ponchatrain, etc.

After marrying Jeff Hayes(1983), our honeymoon was a of month driving, canoeing, backpacking and sometimes just camping for a month out west. Jeff bought a 10 speed bike and we took a bike trip from Decatur, GA to Birmingham, AL(where Jeff grew up) and down to Valdosta, GA camping along the way.

We have moved around a lot, first for Jeff's grad school education, then because he was a minister for different churches. We took youth groups on backpacking trips, led a backpacking camp in VA along the Appalachian Trail and eventually hiked the entire AT in sections over 3 years from GA to ME. We also hiked the Camino de Santiago from western France across Spain.

The last 26 years, we have lived in AL. For the last 10 years there we had a hiker hostel for backpackers on the Pinhoti Trail. It was fun to be Trail Angels, but it was a lot of work. Since our only grandson lived in Portland, we decided to move there and help as we can.

Now I have a Trek pedal assist e-bike and LOVE IT!! I ride it all around Portland and have a group of women with whom I hike.

Jeff and I love to travel and plan to hike in Scotland next.

Tell us about your career path: (Limit to 100 words)

1977 attended Maryville College in Maryville, TN. Received BA in Psychology and Interpreting for the Deaf (1981). First full-time job was the Catholic Deaf Center in New Orleans, LA. Next was as a contract interpreter with the Chicago Hearing Society and also full-time at Chicago Reid Mental Health Hospital. Then I worked full-time with the Knoxville Area Communication Center for the Deaf in Knoxville, TN for about 5 years. Next I was contracted with the State of Connecticut as an interpreter for a couple years. Then in Decatur, GA taught interpreting. Next VA and lastly AL.

What is your proudest achievement: (Limit to 100 words)

Becoming an RID nationally certified sign language interpreter and supporting our family putting both kids through undergraduate school as well as while Jeff pursued higher education.

Have you retired? What are you doing now:(Limit to 100 words)

Living in Portland next door to our son, his wife and son. Hiking in the mountains, cycling around town, attending water aerobics class at the community center, doing yoga at home with YouTube, taking turns cooking dinner with Jeff, walking the dogs, cuddling with the cats, reading books.

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

Mr Dobbins was my favorite teacher. He was all about music, which I love as well.

He made an impact on my life by his leading example of never settle for anything less than your best. He taught us that when you make a mistake, learn from it & move on to improve.

This quality left a lasting impact on my life to keep striving to do my best in life. Even in my nursing career, accuracy is most important.
His love for music and accuracy was passed onto all of us who were fortunate enough to be taught by him.

What was your favorite hang-out place in High School?

The choir room

What were your top 3 favorite songs in High School? Add the artist, if known.

Rainy Days & Mondays by The Carpenters. – Diary by Bread. – Annie's Song by John Denver

What is your fondest memory of Willowbrook High School?(Limit to 100 words)

Singing the Hallelujah Chorus at the end of every Christmas Program

Give us a brief history of your life since graduating: (Limit to 300 words)

In 1977, I became an LPN, where I worked at Hinsdale Hospital for several years.
I also got married in 1978 . Together, we have 3 children; Heather, Jason & Marvin.
We attended Bible College in Saskatchewan, Canada where our 3rd child was born.
Became a Pastor's wife & served in our church along side my husband for many years. My greatest blessing was leading the children's choir and performance's. The struggles were real in the pastorate, & sadly, we divorced. Trying hard to rediscover who I was as an individual and after my own kids were in college, I went to college and fulfilled a life dream of becoming an RN.

In 2013, I was blessed to have met a wonderful man -Mark Taylor. He worked for The Timken Co. as a mechanical Engineer in Canton, OH. Sadly in 2025, he passed after struggling with Alzheimer's disease for several years.
My mother, 89 years young, lives with me & I have taken the role of her full time caregiver. I'm blessed to have her, along with one of my 12 grandchildren living with me as he attends College. And of course, my calico cat Callie.
Over the years, I have engaged in several of my loves- reading Amish fiction, quilting, cooking, singing, & Bible Studies both as a teacher & participant. I also love to travel & see/experience new places.
One of my favorite places to go is Sleeping Bear Dunes in MI. A day on the beach is always lovely!
I have 12 grandchildren , whom I adore!
I love spending time with my kids & grandkids. I especially love the holidays when they all come to OH!

Tell us about your career path: (Limit to 100 words)

In1976-1977, I attended Hinsdale School of PracticalNursing, graduated and after passing my state boards, stayed working there. This career path continued when we moved around to different places.
One of my most favorite jobs was working as a supervisor over a clinic within a large practice of many physicians at the North Canto Medical Clinic..
In 2010, I fulfilled a dream of obtaining my RN.
I worked in several Hospitals, a nursing home as the evening shift supervisor, then a huge career change as an occupational Health Nurse for The Goodyear Co. in Akron.

What is your proudest achievement: (Limit to 100 words)

Going to College andgetting my RN degree at 52!
That was no easy task. But it filled in a lot of blanks as I was an LPN for many years.
It was putting the answers to all of the why do we do it this way, what's behind the lab work.., so much more.
I've always loved nursing in all facets of the job.
I was a Candy Striper at Elmhurst Hospital when at WBHS. So, as a young girl, I had dreams of becoming a nurse.

Have you retired? What are you doing now:(Limit to 100 words)

Iretiredout of necessity - takingcare of my husband. He had an aortadissection w/wound complications. So thank God I knew how to take care of him.
I've traveled some, I do love to make anything quilted! Currently, I'm caring for my mom at my home.

Giuliani Grosse Sonate for flute and guitar
Stairway to Heaven

What is your fondest memory of Willowbrook High School?(Limit to 100 words)

When I was at WBHS I played several great solo recitals.
I used to practice under the bleachers during basketball games.
And then there were the football games in the mud where your spats were the only things holding your shoes on your feet!

Give us a brief history of your life since graduating: (Limit to 300 words)

I'vebeen fortunate to make a living doing something I've loved sincechildhood, while also having the freedom to pursue a lot of other interests. I enjoy my rose gardens and long walks with my best friend, Henry Lloyd. I always seem to have a project going, whether it was starting the business, writing a new program, arranging music, or rehabbing my 1928 bungalow.
During the pandemic, I hosted a concert series in my front yard for the neighbors. My various ensembles played 16 different concerts the 1st year and 12 more the 2nd. We rehearsed in the back yard, and played in the front. I wrote several new programs which were all ready to go when we were finally able to go out and play again.

Tell us about your career path: (Limit to 100 words)

I'm a flutist. It's theonly thing I'veever wantedto do, since I was 4 years old. I'm literally living the dream. As a freelance musician, I play concerts, background music and shows in the Chicago area and beyond as soloist and with numerous ensembles. I perform, teach, and arrange music. I founded Tri-L-Co Music in 1984 and book musicians for concert series, libraries, retirement communities. I've taught at several colleges and written for Flute Talk Magazine, served the National Flute Association, am a founding member of the Chicago Flute Club, and have performed on WFMT, WNIB, and internationally.

What is your proudest achievement: (Limit to 100 words)

When myparents died I usedpart oftheinheritancetocommission a piece of music from Efrain Amaya called, "Jubilee." I helped create art!

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

Barb Gosselar helped me develop a lifelong love of reading, and also became a dear friend. I also appreciate how Mr. Langellier made me enjoy physiology, even though science was never my thing.

What was your favorite hang-out place in High School?

Home

What were your top 3 favorite songs in High School? Add the artist, if known.

Bohemian Rhapsody -- Queen
American Pie -- Don McLean
Hotel California -- The Eagles

What is your fondest memory of Willowbrook High School?(Limit to 100 words)

Being stage manager for the talent show (Showtime). That's where I met Mr Pouliot, who might have been the most excited person at Willowbrook when I got accepted to Notre Dame.

Give us a brief history of your life since graduating: (Limit to 300 words)

Notre Dame has been the defining experience for my adult life. I met my spouse of 45 years on a spiritual retreat there, and we have been involved in our parishes wherever we have lived since, including taking high school students on service trips to Appalachia for many years, both in Oak Park IL (where we lived for 18 years) and South Bend IN (we've been here 24 years and counting). I am also obsessed with Notre Dame women's basketball and will travel to Rome in November 2026 to see them play the Pope's alma mater, Villanova. In South Bend we are involved with our St. Vincent de Paul conference and in programs for the homeless. We have three amazing children, Rob, Rebecca, and Alex, all of whom are in wonderfully blessed relationships. Rob and Alex both graduated from Notre Dame in electrical engineering, and

Rebecca wowed her professors at St. Mary's College, where she created her own program in 3 disciplines, and went on to grad school at the University of Chicago. I am a proud mother! My husband worked at a non-profit law firm in Chicago for 18 years, and just retired from his Associate Dean position at Notre Dame Law School after 24 years. We walked the Camino pilgrimage in Spain in April 2026, and are enjoying knocking other bucket list items off our respective lists. In 2028 I will finally take a cruise to Antarctica! I am looking forward (most of all) to being a grandmother.

Tell us about your career path: (Limit to 100 words)

After graduating from Notre Dame I went to journalism graduate school at Marquette, then worked in editing at Harvard while my husband attended law school. Afterwards we lived in Oak Park for 18 years. During that time I worked for an online medical book review company, editing reviews, worked in admissions at Loyola's Law School, and on staff in nursing administration at Loyola's Medical Center. In South Bend, we purchased a home that needed renovations, and we painted in every room, and I found a new career and created my own painting business. Now I'm happily retired.

What is your proudest achievement:

My children, no question.

Have you retired? What are you doing now:

Yes, I'm retired and enjoying many travels.

Went to College of DuPage. Worked and live on-site in the National Parks.
Everglades, North Cascades and Grand Canyon-South Rim. Waited tables on Captiva Island (FL) and in Bailey's Harbor (Door County) at Maxwelton Braes Golf Resort. Became a Tour Director to lead senior citizen groups on Motorcoach tours and Cruises for over 20 years, traveling 20 days every month. Been to 26 Countries, 50 cruises, all of North America with 37 tours/cruises to Alaska. Went to Australia, New Zealand and Fiji 5 times before the year 2000. Did not have children, by choice. In a long term wonderful relationship with a man.

Our happy place is Devil's Lake State Park and the area around Baraboo, WI.
Moved to Iowa in 2008. Moved to Cedar Rapids, Iowa in 2014... where I now live.
My travel career ended after 9/11, so I did some hotel front Desk, Von Maur customer service, Managed a small 29 room motel, worked in a bakery plus some other work opportunities. I love living in Iowa! I broke my femur 16 months ago, so that is why I am using a cane as I improve slowly. My dad was 53 when I was born as he was 21 years older than my Mom. He died in 1984 and Mom died in 2016. I love writing hand-written, long letters, stickers, Driving day trips, exploring, volunteering and being a News-Junkie.
I try to enjoy each day and I try to donate and help others when I can. My exciting World travel is pretty much over but I do remember it fondly every single day. My last reunion was the 20th. Also graduated from the International Tour Management Institute in San Francisco. Text me first, I don't answer the phone. 319 450-2840. Peace.

Building floats for the homecoming parade...in my parents' garage.
Senior trip to Indiana Lake, not one other class before us ever organized or even tried to arrange such an endeavor.
Attending homecomings and proms. All eight of them make me smile.

Give us a brief history of your life since graduating: (Limit to 300 words)

Going to Northern Illinois University was scary and huge.
Getting married was life altering.
Having children was intimidating and challenging.
Learning the hospitality industry was motivating and thrilling, so many different facets.
Traveling around the world and learning about food, people, architecture, languages and culture is better than getting any education.

Spending time with my children and their families makes me proud and accomplished.
Retired and volunteering with our food bank, women's shelters, men's shelters and a soup kitchen makes me appreciate the kindness of others and the life choices I made.
My parents have passed away and I have lost many other family members and close friends. That is the sad side of life, but I do know they are with God. I'm not afraid to die, I just haven't packed my suitcase yet.

Tell us about your career path: (Limit to 100 words)
Hospitality industry. I really enjoyed our travels and I believed no one knew Tucson better than I. Started out at a resort in Tucson, working front desk, then front desk manager, then sales and catering. Sales was my forte. Loved every aspect of sales: individual business travelers, group, government, weddings, conferences, golf, working with the White Sox was kind of neat. Participating in tradeshows around the world promoting Tucson was empowering. Then I did it again in Fort Myers, Florida.
Then focused on short and long term accommodations back in Tucson.
But made the most money selling toys---go figure.

What is your proudest achievement: (Limit to 100 words)
Don't know yet.....

Have you retired? What are you doing now:(Limit to 100 words)
Retired and volunteering with our food bank, women's shelters, men's shelters and a soup kitchen makes me appreciate the kindness of others and the life choices I made.

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)
Mr. Krane. He contributed to my decision to major in Economics in college.

What was your favorite hang-out place in High School?
My basement

What were your top 3 favorite songs in High School? Add the artist, if known.
No specific songs but Yes, Jethro Tull and Procol Harem were three of my favorite bands

Give us a brief history of your life since graduating:
Stopped smoking weed. Went to Antioch college. Graduated with Econ/ comp sci major. Met my future wife there. Moved to Boston for a year. Went to graduate school at University of Michigan. Lived in NYC for eight years. Moved to Seattle in 1991 and have been limbered ever since. Have two wonderful daughters. One lives near by and the other lives in Berlin. We go there often to see her.

Tell us about your career path:
Desktop computers were just becoming a thing when I started working in 1983. I had a passion working with them and combined that with my family's health care background. I have been working in this field my whole career. Technology changes so much that my job has always kept me stimulated. I hardly write code anymore now that AI has taken hold. I'm enjoying the challenge now but I'm not sure what my job will look like in the future. I'm thankful that I can retire if it no longer becomes enjoyable.

Have you retired? What are you doing now:
No, my work is stimulating and so I will keep working until I'm not enjoying it anymore. I suspect our retire in a couple of years. I do talk to my friends who are retired to get ideas of what I may want to do when I am retired.

Add anything else you would like to share with the class:
I enjoyed the reunion. My only regret is that I wish I had prepared more for better questions to ask people when I saw them. Many of the interactions were somewhat superficial.

Carpenter career started at 17. Married at 19. bought 1st house at 19. Became a father a month before 21 (son). Had our 2nd son at 23. Started college at 23. Graduated at 26. Ran the gamut career wise in the construction business. Owned my own business for many years. Coached baseball for 17 years. Worked hard to put our 2 sons through college and come out ready for life without debt. Played hardball baseball until I was 58. Continually got involved with my local community with Scouts, Odyssey of the Mind, Youth Sports, Townhouse Board, and Property Owners Board. I'm still working-currently training young Carpenters to become Project Managers, Estimators and Superintendents. Looking forward to 2 more years working them and then retiring with my wife. We have 2 amazing daughters-in-law and 4 amazing grandchildren. Planning to travel, continue working with clay, wood and other art media. I don't plan to stop learning and I do plan to keep playing Pickleball!

Graduation Day! High School was a great adventure and celebrating it with my best friends was fantastic. But, knowing that when one chapter ends, another is just beginning (College) was very exciting to me.

Give us a brief history of your life since graduating: (Limit to 300 words)
Married a 1973 Willowbrook Alumni, Steve Stockton in August of 1979. Still married to him today. We had two children. A son Grant, in1993, and a daughter Nicole, in 1995. Neither of them are married as of this writing, so no grandchildren yet. My husband built our house back in 1994, contracting out only the foundation and brickwork, electricity, drywall and roofing. We still love the Village of Wayne with our small subdivision surrounded by the Pratt Wayne Woods Forest Preserve.

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

I have two favorite teachers: Mrs. Alice Joan Christian and Mrs. Alice Sholty. I had each of the for two classes: Introduction to Cooking and Foreign Cooking and Introduction to Cooking and Sewing. I had no interest in either of these subjects. My stepmother demanded that I learn to cook and sew. The skills I learned I have used almost every day of my life. They both were disciplined and demanding and I learned more than just cooking and sewing.

What was your favorite hang-out place in High School?

McDonald's, 2111 Midwest Rd., Oak Brook was a popular hangout. Iwasn't much for hanging out.

What were your top 3 favorite songs in High School? Add the artist, if known.

Rock: Fame by David Bowie
Americana: At Seventeen by Janis Ian
Soul/Dance: Heaven Must be Missing an Angel by Tavares

Give us a brief history of your life since graduating: (Limit to 300 words)

I put myself through college and graduated with academic honors. I began working fulltime prior to graduation and continued to do so for 40 plus years. I married and after over 20 years became a divorcee. I have two adult children. There were the milestones of raising children: education, vacations, graduations, marriages, and grandchildren. There were challenges such as illness, disease and death events. I involved myself with various community organizations and events. I became involved in local politics and ran for a countywide office. I have traveled to a variety of European, Caribbean, Central American, North American countries plus New Zealand. In addition, there have been trips to various areas of the United States. I am retired and wonder how I ever had time to work fulltime.

Tell us about your career path: (Limit to 100 words)

I call this my work history. I didn't have a career - work is a four-letter word. I was not one to be driven by personal work goals. I began working in a law firm which lead to over 40 years employment in various

levels of local government. I work in the county, municipal and township levels of government. I earned various certifications linked to my positions. I believed in the role local government plays in citizens' lives and took pride in being a public servant. The work was challenging and demanding. I interact with a variety of people.

What is your proudest achievement: (Limit to 100 words)

Proudest achievement: motherhood. Jacqueline Kennedy famously said: "If you bungle raising your children, I don't think whatever else you do well matters very much." For me, being a mom was the most important role/hat I wore. With the passage of time, I have learned the most important aspect of life is who you spend it with. For me that means family, framily and friends.

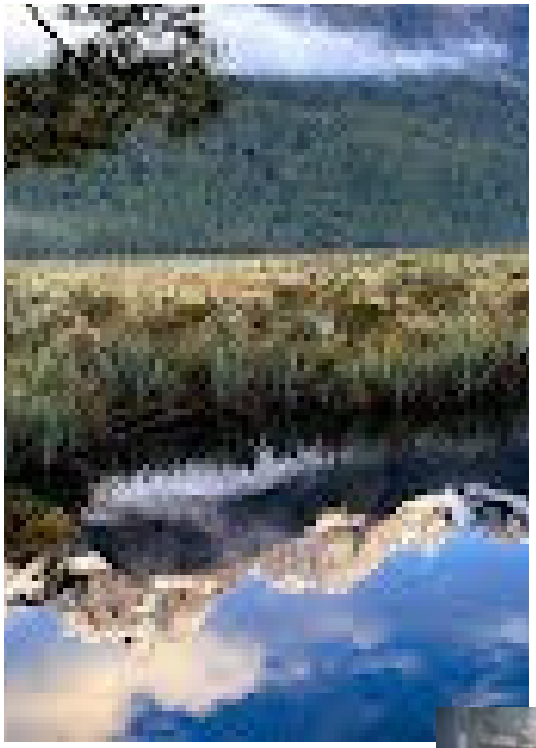

Have you retired? What are you doing now:(Limit to 100 words)

Happily retired. I currently serve on two local government boards: Firemen's Pension Fund as Recording Secretary and Township Public Water District Board, Trustee. I have joined Illinois State University's Sr. Professionals and serve on its Education Committee. WE member - a women's health group. Travel - for fun and family.

Do you have a favorite teacher that made an impact on your life, and how? (Limit to 100 words)

Washington School - 6th grade - Mr. Roy Brodersen. It was his first year of teaching and he used a very interactive teaching system. We got to participate in the learning. Role playing, experiments, hands on experience. We put our desks in a "U" shape, and everyone was involved. That was important to me, because having a name starting with "V", I was always put in the back of the room. Oh, and did I mention he was handsome, too? We thought he looked like Tom Jones. After school I would race him in his car, me on my bike, down Monterey Ave. Also, Mr. David Smith, helped me make sense of Algebra and Geometry.

What was your favorite hang-out place in High School?

Hands down, the Pool! Tony's on Ardmore, the skating rink. Mike Rood's driveway.

Give us a brief history of your life since graduating: (Limit to 300 words)

After graduation, I thought I wanted to be a teacher, with a short stint at Northern Illinois University. I ended up attending Southern Illinois University, earning a degree in graphic design.
I worked in the graphics field for a short time after college, and then hit the road, becoming a DHL, and then a Fedex driver, transferring to South Florida to get out of the cold, in 1991. Stayed with them for 10 years as a courier and dispatcher. After Fedex, I did catalog work for Office Depot and several magazines, mostly freelance work. Opened a small, artsy shop in Delray Beach, selling hand-painted items and furniture, teaching art techniques and offering faux finishing. I rehabbed houses most of my life and earned my Real Estate license in 1999, mostly working with investors in the foreclosure market.
Became an Event Manager and traveled the US for 13 years til Covid hit and shut us down. Got to meet & mingle with some big names in the Personal Development field. Have lived in San Diego, Tempe, AZ, Las Vegas and several areas in Florida. Work now for the Central Park Performing Arts Center as a house manager, Tampa Bay Buccaneers/NFL events crew and event gig work for multiple DMCs. Never a dull moment, I am definitely a Renaissance Woman! No kids, no pets, no significant other, no worries! But I do enjoy my nieces and nephews and great-nieces and nephews.

What is your proudest achievement: (Limit to 100 words)

One of my worst accomplishments was being part-owner of a bar, O'Neill's Pub, at Belmont and Long in Chicago. I was only 26!!! and had no business being there. I'm proud I got out (alive) in just under two years, and I do remember a pretty great party for the 1985 Super Bowl. Go Bears!

Have you retired? What are you doing now:(Limit to 100 words)

I am not retired, but I am fortunate to be able to take my summers off and spend my time in the Wisconsin Dells area. Come on up, there's some amazingly beautiful places here.

Add anything else you would like to share with the class:

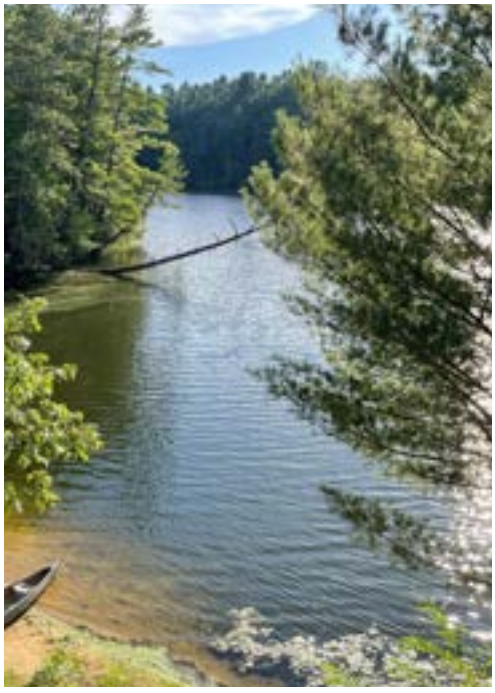

So fortunate to grow up in the era we did, with all the amazing people we have in our class.

What was your favorite hang-out place in High School?
Wherever there was a party.

What were your top 3 favorite songs in High School? Add the artist, if known.
Don't have just three. But they all were ones we played in the locker room before games.

What is your fondest memory of Willowbrook High School?(Limit to 100 words)
Don't know it is the fondest but I hid cat parts from anatomy class in parts of the room so future students could enjoy them.

Give us a brief history of your life since graduating: (Limit to 300 words)
I escaped from marriage until 1984. Met a Willowbrook graduate from 76 that I didn't know in high school. 42 long years now. Now have 3 grandchildren. Youngest is currently on display in Washington DC at Curefest.

Tell us about your career path: (Limit to 100 words)
Supply Chain Manager

What is your proudest achievement: (Limit to 100 words)
Surviving being three feet from a black bear in the wild and getting a guy having a stroke out of the wilderness to where a helicopter could get him.

Have you retired? What are you doing now:(Limit to 100 words)
Retired from my first career. Now I'm a real estate agent. Probably working more this year than the first career.

Thank You's

This Reunion Booklet was certainly a labor of love. I might have thought twice about taking on this task, if I had known how time consuming it was going to be to create it! But know that I have persevered for each of you, so that the memory of our 50th Reunion lives on.

Thanks to each and every one of you for rekindling the "youth" in me.
